WHEEL
LOADERS

4K LINKAGE.

New completely redesigned linkage to the latest state of the art for **maximum breakout force**.

AUTO SAFETY IS OUR PRIORITY.

The **negative parking brake** is integrated into the front axle for maximum safety in all operating situations.

SILENCE, PLEASE.

By using new soundabsorbing materials and special “anti vibration” rubber shocks, **the noise inside cabin is radically reduced** guaranteeing **maximum comfort** to the operator.

360° BREATHTAKING VIEW.

The new ROPS/FOPS Level II cabin design guarantee a **360 ° visibility**, for **maximum work place control** and **highest level of safety**.

BE COOL.

The **brand new ventilation system** guarantees operator comfort. You can choose between **automatic climate control** or the **air conditioner**, thus obtaining the **perfect temperature in the cabin**.

100% VENIERI DESIGN.

In the new machines our **Venieri Design Center** follows the “family feelings” but introduces significant **stylistic innovations**.

TOTAL STABILITY.

Oscillating rear axle fixed to the frame with **maintenance-free** supports.

NEW DEUTZ TIER 4i/STAGE IIIB ENGINE

The new Deutz engine complies with the latest emission standards and delivers high torque at low rpm.

ALWAYS CLEAN AIR.

With the new air cleaner system, offering a **two stage filtration**, **high efficiencies pre-cleaner** plus **primary filters** and **safety filters**, we are improving engine protection to a maximum.

DOUBLE ATTENTION FOR SAVING.

The new electrically controlled **dual speed cooling fan**, adjusting the rotation speed according to working conditions, **reducing fuel consumption and noise.**

BUILT FOR POWER, DESIGNED FOR AGILITY.

The **special design of the counterweight** guarantees **perfect maneuverability**, **maximum drive angle** and protects the rear light system

"Z" LINKAGE WHEEL LOADER

DIESEL ENGINE

4 cylinder in line engine, turbocharged with intercooler, common-rail injection with electronic control, exhaust gas recirculation, water cooled, dry filtration, oxidation catalyst (DOC). Emissioned according to CE 97/68 - Stage IIIB/Tier 4i.

Type	Deutz TCD 3.6 L4
Max. Power	94.5 kW - 128 HP
Rated	rpm 2.300
Power ISO/TR 14396	74,4 kW - 101 HP
Power EEC 80/1269	74,4 kW - 101 HP
Economic working range	rpm 1200 - 1800
Max. torque	Nm 410
Bore	mm 98
Stroke	mm 120
Displacement	cm ³ 3.620

ELECTRIC SYSTEM

Battery	12 Volt
Capacity EN 60095-1	110 Ah - 850 A
Alternator rating	95 A
Reverse warning	Standard
Wiring according to	IP 67 DIN 40050

TRANSMISSION

Hydrostatic transmission with automatic power regulation and closed circuit with pumps and variable displacement engine. Gearbox with 2 mechanical selections: 2 gear speeds (FWD/REV) and 2 road speeds (FWD/REV)

Work speed	Forward	Reverse
1 st gear km/h	0 ÷ 5	0 ÷ 5
2 nd gear km/h	0 ÷ 12	0 ÷ 12

Road speed	Forward	Reverse
1 st gear km/h	0 ÷ 18	0 ÷ 18
2 nd gear km/h	0 ÷ 40*	0 ÷ 40*

* Self limited max speed

AXLES

Two heavy duty equal size axles with planetary final drives in each wheel. Fixed rigid drive axle. Oscillation rear axle on rear chassis section up to a total angle of 25°. Transfer gearbox transferring movement directly to the rear and to the front axle via a transmission shaft. Self locking limited slip differential on front axle. Self locking limited slip differential on rear axle (optional).

BRAKES

Service: hydraulic multi-disc oil brake on front and rear axles. Parking brake: negative hydraulic on front axle, electrically applied.

TYRES

Standard	15.5 x 25
Option	405/70 R24 455/70 R24 15.5 R25

STEERING

Servo-assisted steering **LOAD SENSING** system.

Total steering angle	mm	80°
Inner tyres turning radius	mm	2.703
External tyres turning radius	mm	4.756
External bucket turning radius*	mm	5.270

* Bucket on traveling condition

HYDRAULIC SYSTEM

Two gear pump, the first for loader and steering circuit with **LOAD SENSING** valve, the second for the fan circuit with two rotating speed. Modular two-element control valve with main relief valve. Double acting hydraulic cylinders.

Hydraulic oil cooling radiator. Full flow oil filter on the drain pipe. Joystick control with 4 position lifting system and with 3 position bucket system.

Max. flow	lt/'	105
Max. flow with high flow (optional)	lt/'	130
Loader relief valve pressure	bar	250
Steering relief valve pressure	bar	175
Lift cylinder	mm	85x827
Bucket cylinder	mm	100x380
Lifting time (full)	sec.	5.1
Lowering time (empty)	sec.	3.1
Unloading time sec.	sec.	1.2
Total time of cyclus sec.	sec.	9.4

THE NEW CABIN

A BREATHTAKING VIEW.

Take a seat in your customized control room. Create your ideal work space by **adjusting** the **pneumatic seat** and the **steering wheel** to suit your specific needs. Select the commands, **all at your fingertips**. Excellent **visibility to 360°** gives you the best view to work with maximum efficiency. The combination of **breathtaking cabin** and the **latest state of the art of 4K linkage** allows the **maximum control** of your attachments.

In the new VF 7.63C and 9.63C cabin we **minimized "blind spots"** for **superb visibility** in all working conditions.

OPEN SESAME!

The **door with double opening** allows the operator to work with the entrance door closed, with top glass opened, ensuring **maximum ventilation** even with the A/C off and **without protruding parts out of shape**.

BEAUTY FINALLY MEETS FUNCTIONALITY.

The Venieri Design Centre, with the VF 7.63C and VF 9.63C nwe cab tried to merge **function** and **style** with the aim of become the best in the market. The new interior design has also allowed us to create different compartments useful for storing small tools, mobile phone, beverage, and more.

ARTIFICIAL INTELLIGENCE.

Advanced man/machine interface, which constantly **monitors the performance of the machine** and communicates **each diagnosis** to the operator via a large and detailed LCD screen in the dashboard.

LAYOUT A

LAYOUT B

SETTINGS

ENGINE ERROR

BE COOL.

The entire ventilation system has been redesigned according to **ISO10263** also ensuring easy maintenance to the heating and A/C unit. Using a single dashboard, the operator can choose the ideal temperature, ensuring **maximum working comfort**. (The VF 7.63C and VF 9.63C can be equipped with **Venieri Climatronic**).

**THE BLACK BOX.**

For the first time on a Venieri cabin, all electrical control are positioned in a **waterproof** position accessible only from inside the cabin, easy to access and complete all diagnostics.

**ENJOY THE SHOW.**

The driver's seat is equipped with the **most advanced solutions in terms of comfort** for maximum operational efficiency.

CLASS EVOLUTION

CLEAN POWER, ZERO CONSUMPTION. NEW DEUTZ TIER 4/STAGE IIIB ENGINES

The VF 7.63C and VF 9.63C is powered by the **new Deutz TCD 3.6 L4, a 3,620 cc** four cylinder unit **awarded as best engine in his class**. The impressive performance, reliability and durability distinguishing this engine have been made possible by adopting the most advanced technology, such as: **electronically controlled Common Rail injection, a turbocharger with intercooler and wastegate valve, and a proportional speed viscostatic fan**, to mention but a few. The result is a minimum specific fuel consumption of **just 210 g/kWh** - an outstanding figure for an engine of this size - which, through the use of an external gas recirculation system and the diesel oxidatation catalyst (**DOC**) compliance with the **Tier 4i** emissions regulations and achieved.

› COMMON RAIL

In Deutz engines, injection pressures of **1,600 bar** ensure that the fuel is atomised perfectly for **maximised combustion efficiency**, which not only **reduces fuel consumption** but also **increased torque and power**.

› THE DOC CATALYST

The **DOC** (Diesel Oxidation Catalyst) installed above the engine is a **catalytic converter** which **transforms the most undesirable components of the exhaust gas into substances that are harmless for the environment**. Unlike a conventional DPF (Diesel Particulate Filter), the DOC does not require energy-costly active regeneration cycles works with no additive reagents, they are also **maintenance-free**.

› ENGINE MANAGEMENT

To avoid unnecessary and unproductive fuel consumption, the engine **is managed entirely electronically**, to deliver only the power effectively needed for the job in hand.

9.63C Deutz TCD 3.6 L4
94,5 kW - 128 CV

7.63C Deutz TCD 3.6 L4
78 kW - 106 CV

SILENCE, PLEASE.

The noise inside the new cab is simply **extraordinary. With only 70 dB.**

VROOOOOOOOM!

Driving speed **40 km/h** self-limited. We are in the Motor Valley and the speed is not an option. [limited to specific country regulation (TUV)].

MAXIMUM POWER EXACTLY WHERE YOU NEED IT.

A lot of power for the hydraulic system and, at the same time, a reduction of the travel speed. For these reasons VF 7.63C and 9.63C wheel loaders need a single pedal. The brake pedal with **inching function** can control both the mechanical brake both the hydraulic (inching). Real advantages are **less wear of the service brake** and **optimum distribution of engine power**.

No pressure
on the inching/brake pedal:
maximum power for traction.

Normal pressure
on the inching/brake pedal:
the speed reduction, the more power
the hydraulic system service.

Maximum pressure
on the inching/brake pedal:
the wheel loader stops,
maximum strength to the plumbing.

Venieri GLOBAL

Venieri GLOBAL™ is the newest Venieri monitoring system by Satellite allowing increase productivity, providing detailed information on the fleet and equipment, as well as an incredible amount of data to ensure the highest levels of performance and greater economic efficiency.
