

Volvo Construction Equipment

# EC250D, EC300D

Volvo Excavators 24.5-33.4 t 204-228 hp

# POWERFUL PERFORMANCE.

Operate with increased power and digging force in Volvo's EC250D and EC300D. With faster cycle times and greater productivity, these machines will help you to get the job done faster. Whether you work in the quarry, road construction, site preparation or any other application, you'll experience high performance from these powerful machines.

### Improved structure

For maximum durability and reliability, the boom and arm have been reinforced in critical areas to equally distribute mechanical stresses and handle the increased working power of these machines.

### Electro-hydraulic system

New electro-hydraulic system and main control valve (MCV) use intelligent technology to control on-demand flow and reduce internal losses in the hydraulic circuit. This provides increased controllability, shorter cycle times and improved fuel efficiency.

### Increased power

Experience increased power and digging force as well as faster cycle times for greater productivity. Compared to the previous model, hydraulic pump flow has improved by 5% while digging force, swing torque and tractive force have increased by 3-5%. In the EC300D, engine power has increased by 11%.

### Improved controllability

Both grading and combined operations have been improved thanks to Volvo's smart hydraulic system which increases controllability. Benefit from smoother and easier movement when traveling and lifting simultaneously as well as better grading quality from the harmonized boom and arm movement.

# SAVE FUEL WITH VOLVO.

If you're looking for a fuel efficient and productive machine that will increase your competitive edge look no further than Volvo's latest offering. With proven, advanced technology the EC250D and EC300D offer customers a 7% - 10% increase in fuel efficiency compared to the previous model. Increase production, reduce fuel consumption and reach new levels of efficiency with Volvo.

## Volvo D7 engine

Volvo's state-of-the-art D7 diesel engine is seamlessly integrated with all excavator systems. The premium, six cylinder engine delivers high performance and low fuel consumption. The D7 is available in two versions to comply with regional emission regulations.

## Auto engine shutdown

The optional auto engine shutdown function automatically turns the engine off to reduce fuel consumption when the machine is inactive for a preset amount of time (five minutes is the default setting). The operator is informed one minute before this occurs.

## Fuel consumption display

A new gauge bar on the I-ECU measures instantaneous fuel consumption while average fuel consumption is displayed numerically per hour. This allows you to monitor fuel usage on different job sites and applications.

## Work modes

Volvo's unique, integrated work mode system now includes the G4 mode for optimum fuel efficiency and machine performance. Operators can choose the best work mode to suit the task at hand – simply select from I (Idle), F (Fine), G (General), H (Heavy) and P (Power max) mode.

## ECO mode

Volvo's unique ECO mode contributes to up to 5% of the machine's total improved fuel efficiency – without any loss of performance in most operating conditions. The design features electronic pump control technology which reduces flow and pressure losses while maintaining digging power and maximizing swing torque.

# THE VOLVO EXPERIENCE.

At Volvo we know that when operators are comfortable they experience less fatigue and work more productively. That's why the new, modern styling of the D-series cab provides superior visibility, a safe and spacious working environment and easy to access controls – right where you'd want them. Trust Volvo to think of everything and increase your productivity.

### I-ECU monitor

The new, color LCD monitor displays machine status information including fuel consumption details and service interval alerts. The large, anti-glare, tiltable screen and conveniently placed navigation controls facilitate easy operation and high productivity.

### Climate control system

Operators can set their ideal temperature with Volvo's powerful climate control system which is integrated into the I-ECU. Industry-leading air circulation and defrosting is delivered quickly via 14 well-spaced vents for increased comfort and productivity.

### ROPS

Volvo recommends an optional Roll Over Protective Structure (ROPS) certified cab when working in challenging applications. This provides increased operator safety in the unlikely event of machine roll over.

### Rearview camera

The optional rearview camera is mounted on the counterweight and reduces the blind spot behind the machine for increased safety. The image projects through the colour I-ECU monitor in the cab – avoiding the need for a second screen.

**Cab**  
All-around visibility and an excellent operator environment are at the center of Volvo's cab design. The EC250D and EC300D feature new Volvo styling. The spacious and safe environment has been built strong and includes slim cab pillars, large expanses of glass, an adjustable seat and easy to access controls for reduced fatigue and increased productivity.

# STRAIGHTFORWARD SERVICING.

With built in serviceability, the EC250D and EC300D help you to get the most out of each working day. Volvo engineers have designed these machines to make maintenance easy – with safe and easy access to centralized filters and grouped greasing points.

## Cooling system

The radiator, charged air cooler and hydraulic oil cooler are situated side-by-side on a single layer to maximize efficiency, reduce blockages and aid cleaning. The system is easily accessed for maintenance by simply opening the side door from ground level.

## Extra water separator

An additional water separator is available to further prevent water from entering the engine and impurities from contaminating the fuel. This feature provides increased water separation and filtration capacity for extra durability and reliability.

## Electrical Distribution Box

The fully-sealed Electrical Distribution Box contains all fuses and relays – inside the box cover these are identified on a map. The Volvo design protects against dirt and moisture for more machine uptime. It is accessible from ground level for easy service access.

## Air compressor

Particularly useful when working in dusty environments, this feature provides an air nozzle to clean inside the cab, as well as other areas, for operator comfort and easy maintenance.

## Service access

Large doors and engine hood – which can be fully opened – provide easy service access to components. Centralized filters and greasing points allow regular checks to be done faster for maximum machine uptime and productivity. Durable, steel anti-slip plates ensure safe access for maintenance in more weather conditions and over time.

# ADDING VALUE TO YOUR BUSINESS.

Being a Volvo customer means having a complete set of services at your fingertips. Volvo can offer you a long-term partnership, protect your revenue and provide a full range of customer solutions using high quality parts, delivered by passionate people. Volvo is committed to the positive return of your investment.

**Complete Solutions**  
 Volvo has the right solution for you. So why not let us provide all your needs throughout the whole life cycle of your

machine? By listening to your requirements, we can reduce your total cost of ownership and increase your revenue.

**Genuine Volvo Parts**  
 Our attention to detail is what makes us stand out. This proven concept acts as a solid investment in your machine's future. Parts are extensively tested and approved because every part is vital for uptime and performance. Only by using Genuine Volvo Parts, can you be sure that your machine retains the renowned Volvo quality.

**Service Network**  
 In order to respond to your needs faster, a Volvo expert is on their way to your job site from one of our Volvo facilities. With our extensive infrastructure of technicians, workshops and dealers, Volvo has a comprehensive network to fully support you using local knowledge and global experience.

**Customer Support Agreements**  
 The range of Customer Support Agreements offer preventive maintenance, total repairs and a number of uptime services. Volvo uses the latest technology to monitor machine operation and status, giving you advice to increase your profitability. By having a Customer Support Agreement you are in control of your service costs.

# GET THE MOST FROM YOUR EXCAVATOR.

Maximize your excavator's productivity and profitability with Volvo's comprehensive range of attachments – designed to work in perfect harmony with Volvo machines. Access more applications and effectively perform a variety of tasks while experiencing reduced fuel consumption and reduced cycle times.

## Volvo buckets

Volvo offers a range of high quality buckets designed to perform in a variety of materials. Featuring exceptional design and built in durability, Volvo buckets efficiently handle the toughest of jobs.

## Hydraulic breakers

Volvo hydraulic breakers have been built to break the most demanding materials. With consistent power and high breaking force you'll benefit from maximum impact and durability. Set your Volvo breaker at the right frequency to suit your application needs.

## INTERFACES

### S1 and S2 quick couplers

Volvo's dedicated quick couplers are the ideal choice when you need high performance as well as the ability to easily switch between various attachments – including a tiltrotator. The lightweight design features a low build height and a tight fit to the attachment.

### Universal quick coupler

For ultimate flexibility, the universal quick coupler picks up a wide range of both Volvo and other brand attachments. The coupler can be used with buckets in both the face shovel and backhoe position.

### Direct fit

For maximum productivity when only operating in one application, Volvo's direct fit attachments provide the best performance and shortest tip radius.

## BUCKETS & GROUND ENGAGING TOOLS

### General purpose bucket

The perfect tool for digging and re-handling soft to medium material such as dirt, sand and loose clay soils.

### Heavy-duty bucket

This bucket excels at digging compact materials including loose rock, hard clay and gravel. It can be used in applications such as quarrying or mining.

### Volvo Tooth System

Volvo's robust range of teeth and adapters are designed to cover all applications.

### Fixed ditching bucket

Ideal for ditch cleaning, grading, contouring, landscaping, backfilling and removing soft materials.

### Tiltable ditching bucket

This bucket can be tilted 45° to each side making it ideal for use on slopes. It can be used for ditch cleaning, grading, contouring, landscaping, backfilling and removing soft materials.

### Wear parts

For increased durability, Volvo provides segments, side shrouds, bottom shrouds, teeth, side cutters and bolt-on edges.

## HYDRAULIC BREAKERS

### Breaker package

The all-in-one hydraulic breaker package includes everything you need to start using your breaker. Depending on the machine, it contains a breaker, hydraulic hoses, a breaker bracket and tool.

### Breaker Tools

Volvo hydraulic breakers can be used in a variety of applications. To ensure optimum performance in your application select the right breaker tool from the range.

# FULL OF QUALITY FEATURES.

**Customer solutions**

Volvo provides the right solutions throughout the entire life cycle of your machine to lower total cost of ownership

**Boom float**

This option enables the boom to 'float' over the ground for easy controllability in grading and breaker operations.

**Improved structure**

The boom and arm have been reinforced in critical areas to handle the increased working power of these machines.

**New I-ECU**

The large, color LCD monitor clearly displays machine status information for easy operation and increased productivity.

**Cab design**

All-around visibility, safety, comfort and easy to access controls are at the center of Volvo's operator environment.

**New work modes**

Volvo's unique work mode system now includes the G4 mode for optimum fuel efficiency and performance.

**Increased power**

Benefit from increased power, digging force and faster cycle times for more productivity.

**Electro-hydraulic system**

New electro-hydraulic system and MCV use intelligent technology to control on-demand flow for improved performance and efficiency.

**Service access**

Large doors and engine hood provide easy service access. Centralized filters and greasing points allow regular checks to be done faster.

**New D-series styling**

The EC250D and EC300D boast new, modern D-series styling consistent with Volvo's product family.

**ECO mode**

Volvo's unique ECO mode contributes to up to 5% of the machine's total improved fuel efficiency without any loss of performance.

**Engine D7**

Premium Volvo D7 diesel engine built with proven, advanced technology for high performance and low fuel consumption.

**Optional track guard**

When working in harsh environments, heavy-duty, bolt-on, full track roller guards protect the bottom rollers and links from debris.

# VOLVO EC250D, EC300D IN DETAIL.

	EC250D	EC300D
<b>Engine</b>		
The engine, which provide excellent performance, is equipped with six cylinder, vertical, electronic-controlled high pressure fuel injectors, internal EGR* (*for certain regions), 7 liter in-line waste gate turbo charger, air-to-air intercooler and water cooled diesel engine type.		
Engine	Volvo D7	D7
Max power at	r/s / r/min 30 / 1 800	30 / 1 800
Net, ISO 9249/ SAE J1349	kW / hp 133 / 181	162 / 220
Gross, ISO 14396/ SAE J1995	kW / hp 138 / 188	170 / 231
Max torque at	Nm / r/min 870 / 1 350	1 080 / 1 350
No. of cylinders	6	6
Displacement	l 7.1	7.1
Bore	mm 108	108
Stroke	mm 130	130
<b>Electrical system</b>		
High-capacity electrical system that is well protected. Waterproof double-lock harness plugs are used to secure corrosion-free connections. The main relays and solenoid valves are shielded to prevent damage. The master switch is standard. Advanced monitoring of machine functions and important diagnostic information is displayed on the I-ECU.		
Voltage	V 24	24
Battery capacity	V / Ah 2 x 12 / 200	2 x 12 / 200
Alternator	V / Ah 28 / 80	28 / 80
Start motor	V / kW 24 / 5.5	24 / 5.5
<b>Swing system</b>		
The swing system uses an axial piston motors, driving a planetary gearbox for maximum torque. An automatic holding brake and anti-rebound valve are standard.		
Max. slew speed	r/min 11.9	10.7
Max. slew torque	kNm 91.6	110.9

	EC250D	EC300D
<b>Drive</b>		
Each track is powered by an automatic two-speed shift travel motor. The track brakes are multi-disc, spring-applied and hydraulic released. The travel motor, brake and planetary gears are well protected within the track frame.		
Max. travel speed (low / high)	km/h 3.5 / 5.5	3.4 / 5.4
Max. drawbar pull	kN 217	247
Gradeability	° 35	35
<b>Undercarriage</b>		
The undercarriage has a robust X-shaped frame. Greased and sealed track chains are standard.		
	<b>EC250DL</b>	<b>EC300DL</b>
Track pads	2 x 51	2 x 50
Link pitch	190	203

Shoe width, triple grouser (HD)	-	600
Shoe width, double grouser	700	-
Bottom rollers	2 x 9	2 x 9
Top rollers	2 x 2	2 x 2

	EC250D	EC300D
<b>Hydraulic system</b>		
The new electro-hydraulic system and new MCV (main control valve) use intelligent technology to control on-demand flow for high-productivity, high-digging capacity and excellent fuel economy. The summation system, boom, arm and swing priority along with boom, arm and bucket regeneration provides optimum performance. The following important functions are included in the system: Summation system: Combines the flow of both hydraulic pumps to ensure quick cycle times and high productivity. Boom priority: Gives priority to the boom operation for faster raising when loading or performing deep excavations. Arm priority: Gives priority to the arm operation for faster cycle times in leveling and for increased bucket filling when digging. Swing priority: Gives priority to swing functions for faster simultaneous operations. Regeneration system: Prevents cavitation and provides flow to other movements during simultaneous operations for maximum productivity. Power boost: All digging and lifting forces are increased. Holding valves: Boom and arm holding valves prevent the digging equipment from creeping.		
<b>Main pump, Type 2 x variable displacement axial piston pumps</b>		
Maximum flow	l/min 2 x 240	2 x 263
<b>Pilot pump, Type Gear pump</b>		
Maximum flow	l/min 1 x 18	1 x 18
<b>Relief valve setting</b>		
Implement	MPa 33.3/36.3	
Travel circuit	MPa 36.3	
Slew circuit	MPa 27.9	
Pilot circuit	MPa 3.9	
<b>Hydraulic cylinders</b>

Swing reduction unit	l 5.9	6
Travel reduction unit	l 2 x 5.0	2 x 6.8
<b>Cab</b>		
The operator's cab has easy access via a wide door opening. The cab is supported on hydraulic dampening mounts to reduce shock and vibration levels. These along with sound absorbing lining provide low noise levels. The cab has excellent all-round visibility. The front windshield can easily slide up into the ceiling, and the lower front glass can be removed and stored in the side door. Integrated air-conditioning and heating system: The pressurized and filtered cab air is supplied by an automatically-controlled fan. The air is distributed throughout the cab from 14 vents. Ergonomic operator's seat: The adjustable seat and joystick console move independently to accommodate the operator. The seat has nine different adjustments plus a seat belt for the operator's comfort and safety.		
<b>Sound Level</b>		
Sound level in cab according to ISO 6396		
LpA	dB(A) 71	
External sound level according to ISO 6395 and EU Noise Directive (2000/14/EC) and 474-1:2006 +A1:2009

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (\*) are limited by hydraulic capacity rather than tipping load.

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (\*) are limited by hydraulic capacity rather than tipping load.

## LIFTING CAPACITY EC300DL

Lifting capacity at the arm end without bucket.  
For lifting capacity including bucket, simply subtract actual weight of the direct fit bucket or the bucket with quick coupler from the following values.

	Lifting point	1.5 m		3.0 m		4.5 m		6.0 m		7.5 m		9.0 m		Max. reach		
		Along	Across	Along	Across	Along	Across	Along	Across	Along	Across	Along	Across	Along	Across	mm

# EQUIPMENT.

## STANDARD EQUIPMENT

	EC250D	EC300D
<b>Engine</b>		
Turbocharged, 4 stroke diesel engine with water cooling, direct injection and charged air cooler	•	•
Air filter with indicator	•	•
Air intake heater	•	•
Cyclone pre-cleaner	•	•
Fuel filter and water separator	•	•
Alternator, 80 A	•	•
<b>Electric/Electronic control system</b>		
Contronics		
Advanced mode control system	•	•
Self-diagnostic system	•	•
Caretrack and 3yr-Caretrack subscription	•	•
Machine status indication	•	•
Engine speed sensing power control	•	•
Automatic idling system	•	•
One-touch power boost	•	•
Safety stop/start function	•	•
Adjustable LCD color monitor	•	•
Master electrical disconnect switch	•	•
Engine restart prevention circuit	•	•
High-capacity halogen lights:		
Frame-mounted 2	•	•
Boom-mounted 2	•	•
Batteries, 2 x 12 V / 200 Ah	•	•
Start motor, 24 V / 5.5 kW	•	•
<b>Hydraulic system</b>		
Automatic sensing hydraulic system		
Summation system	•	•
Boom priority	•	•
Arm priority	•	•
Swing priority	•	•
ECO mode fuel saving technology	•	•
Boom, arm and bucket regeneration valves	•	•
Swing anti-rebound valves	•	•
Boom and arm holding valves	•	•
Multi-stage filtering system	•	•
Cylinder cushioning	•	•
Cylinder contamination seals	•	•
Auxiliary hydraulic valve	•	•
Automatic twospeed travel motors	•	•
Hydraulic oil, ISO VG 46	•	•
<b>Frame</b>		
Access way with handrail	•	•
Tool storage area	•	•
Punched metal antislip plates	•	•
Undercover	•	•
<b>Cab and Interior</b>		
Travel pedals and hand levers	•	•
Adjustable operator seat and joystick control console	•	•
Control joysticks	•	•
Heater & air-conditioner, automatic	•	•
Flexible antenna	•	•
AM/FM stereo with CD player, MP3 and USB input	•	•

	EC250D	EC300D
<b>Cab and Interior</b>		
Control lock-out lever	•	•
Cab, all-weather sound suppressed, includes:		
Cup holders	•	•
Door locks	•	•
Tinted glass	•	•
Floor mat	•	•
Horn	•	•
Large storage area	•	•
Pull-up type front window	•	•
Removable lower windshield	•	•
Seat belt	•	•
Safety glass	•	•
Windshield wiper with intermittent feature	•	•
Master key	•	•
Sun screens, front, roof, rear	•	•
<b>Undercarriage</b>		
Undercover	•	•
Hydraulic track adjusters	•	•
Greased and sealed track link	•	•
Track Guard	•	•
<b>Digging equipment</b>		
Linkage	•	•

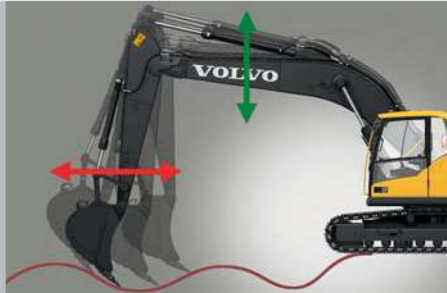

## OPTIONAL EQUIPMENT

	EC250D	EC300D
<b>Engine</b>		
Block heater: 240 V	•	•
Oil bath pre-cleaner	•	•
Diesel coolant heater, 10 kW	•	•
Water separator with heater	•	•
Extra water separator	•	•
Auto engine shutdown	•	•
Fuel filler pump: 35 lpm	•	•
<b>Electric</b>		
Extra work lights:		
Cab-mounted 3 (front 2, rear 1)	•	•
Counterweight-mounted 1	•	•
Travel alarm	•	•
Anti-theft system	•	•
Rotating warning beacon	•	•
Air compressor	•	•
<b>Hydraulic system</b>		
Hose rupture valve: boom, arm	•	•
Overload warning device	•	•
Boom float function with HRV	•	•
Boom float function without HRV	•	•
Hydraulic piping:		
Attachment management system (up to 20 programmable memories)	•	•
Breaker & shear, 1 and 2 pump flow	•	•

## OPTIONAL EQUIPMENT

	EC250D	EC300D
<b>Hydraulic system</b>		
Hydraulic piping:		
Breaker & shear: variable flow and pressure pre-setting	•	•
Additional return filter	•	•
Slope & rotator	•	•
Grapple	•	•
Oil leak (drain) line	•	•
Quick coupler piping	•	•
Volvo hydraulic quick coupler S1	•	•
Volvo hydraulic quick coupler S2	•	•
Volvo hydraulic quick coupler S2 narrow	•	•
Volvo hydraulic quick coupler U24, RQC-OC,ED24	•	•
Volvo hydraulic quick coupler U29, U29 wide, RQC-OC ED29	•	•
Hydraulic oil, ISO VG 32, 68	•	•
Hydraulic oil, longlife oil 32, 46, 68	•	•
<b>Cab and Interior</b>		
Silicon oil and rubber mounts with spring	•	•
ROPS (ISO12117-2) certified cab	•	•
Fabric seat with heater	•	•
Fabric seat with heater and air suspension	•	•
Opening top hatch	•	•
Cab-mounted falling object guard (FOG)	•	•
Cab-mounted falling object protective structure (FOPS)	•	•
Smoker kit (Ashtray and lighter)	•	•
Safety net for front window	•	•
Front rain shield	•	•
Sun shield, roof hatch (steel)	•	•
Lower wiper with intermittent control	•	•
Anti-vandalism kit	•	•
Rear view camera	•	•
Specific key	•	•
<b>Undercarriage</b>		
Full track guard	•	•
<b>Track shoes</b>		
600/700/800/900 mm with triple grousers	•	•
Track shoes 600 mm HD with triple grousers	•	•
Track shoes 700 mm with double grousers	•	•
<b>Frame</b>		
Rear view mirror on counterweight	•	•
Full height counterweight:		
4 250kg, 4 950kg	•	•
6 200kg for long reach	•	•
5 100kg, 5 500kg	•	•
6 800kg for long reach	•	•
<b>Digging equipment</b>		
Boom: 6.0 m monoblock, 5.95 m 2 piece boom	•	•
Boom: 10.2 m long reach	•	•
Arm: 2.5 m , 2.97 m, 3.6 m	•	•
Arm: 7.85 m, long reach	•	•
Boom: 6.2 m monoblock, 6.2 m 2 piece boom	•	•
Boom: 10.2 m, long reach	•	•
Arm: 2.55 m, 2.75 m, 3.05 m, 3.7 m	•	•
Arm: 7.9 m long reach	•	•
<b>Service</b>		
Tool kit, daily maintenance	•	•
Tool kit, full scale	•	•

## SELECTION OF VOLVO OPTIONAL EQUIPMENT

Boom float	
Oil bath pre cleaner	
Additional work lights	
X1 presets	
Diesel-driven engine coolant heater	
Siberian kit	

## BIG ENOUGH TO TRUST SMALL ENOUGH TO CARE

Founded in 1974 CJD are in the industry for the long term and have the skills and knowledge to support you and your equipment. CJD Equipment takes great pride in being Volvo CE's first and only authorised partner in Australia for over 25 years. Together, we provide a full range of machinery ideally suited to Australia's unique landscapes and industry requirements. These products are fully supported through a nationwide network of branches, and carefully selected dealers and service agents, strategically positioned to ensure total support.

With fully equipped workshops and parts warehouses in every capital city, and dealers throughout major regional towns, we have the support network in place to ensure you're well supported, no matter where you or your machines are. Ongoing in-house training programs ensures our technicians' skills keep pace with the latest technology and product advances.
